Parent Satisfaction and Referral Survey
Version 3.0
Detail Report

Understanding the Detail Report

The Parent Satisfaction and Referral Survey asks one open-ended question, based on the response to the net referral question:

How likely are you to refer a friend or colleague to XYZ Christian School? (10 is high) 0 1 2 3 4 5 6 7 8 9 10		
Follow-up Question for 9, 10 (Promoter)	Follow-up Question for 7, 8 (Passive)	Follow-up Question for (0 - 6) (Detractor)
What are the most important reasons for the score you gave?	What are the most important improvements that would help you rate us closer to a 10?	What could we have done - or do now - to make your experience with our school better?
<u>Color-code of answer</u>	<u>Color-code of answer</u>	<u>Color-code of answer</u>
Green	Yellow	Red

The Detail Report provides the answer to these follow-up questions, *in cross-tabbed format*. In other words, if your 3rd grade scores are weak, you can look specifically at the responses for 3rd grade parents. Or you might be particularly interested in the answers of your board, or teachers. We recently worked with a school where higher income people were significantly less satisfied ... and we studied their response to these questions with great interest.

Since the comments repeat themselves, make a point to read them all once, and then consider the comments of key or problem groups only. In general, our observation is that the red and yellow comments tell you the most, in that order.

Happy reading!

The first column provides the crosstab. The second is the token number. "CONFID" means that this respondent asks his/her response remain confidential. The third column tells you the Referral score, and whether the individual was a Promoter, Passive, or Detractor. The fourth column tells you the Satisfaction score, and whether the respondent was an Advocate, Apathetic, or Assassin. The fifth column indicates whether the person was coached – "N" is the usual and correct answer. A "Y" is a problem – someone has suggested to the respondent how they should fill out the survey. (We do ask who coached them if the answer is "Yes")

School as a whole

Martin Luther High School 4621687575	Promoter - 10 Advocate - 10	No	I had the best experience when I attended MLHS. The staff was great and the classes were very good and really prepared me for college. I couldnt have went to a better high school	The only suggestions that I would have for the school is that they get a better lunch program for their students.
Martin Luther High School 7267687575	Promoter - 10 Advocate - 10	No	MLHS offers an excellent education using a Christ-centered viewpoint as opposed to the secular world view that permeates public education. This perspective comes at a time when teens need it most.	Bring the level of the visual arts program up to the level of the music program. Drawing is the key to ALL art professions, and should be included EVERY semester, using a variety of media. Somehow make it easier for the kids to ask teachers questions outside of class. Some are never available either before or after school for assistance.
Martin Luther High School 7775187575	Promoter - 10 Advocate - 10	No	christian basis, strong academics, caring staff	always room for improvement
Martin Luther High School 2625687575	Promoter - 10 Advocate - 10	No	Christian Education	Students more active in helping with rummage sales
Martin Luther High School CONFID	Promoter - 10 Advocate - 10	No	Christian education has always been important to me and having the opportunity for my children to attend a Lutheran High School within close proximity to where we live, was a no brainer. God would provide the funds needed to send our children and He did just that--the money was always there when needed.	Keep praying that more parents will see the value of sending their children to a Christian based school, when the values that used to be taught all over are being taken away from our public schools, thereby undermining the values that Christ has taught.
Martin Luther High School 1800587575	Promoter - 10 Advocate - 10	No	christian education values	more students going more money
Martin Luther High School 7753387575	Promoter - 10 Advocate - 10	No	Christian teachers and outstanding curriculum	Would love to have a parents prayer group
Martin Luther High School 6651087575	Promoter - 10 Advocate - 10	No	The quality of education and the quality of student that attends are both very high.	More bible, less religion.
Martin Luther High School 5478887575	Promoter - 10 Advocate - 10	No	Teachers are outstanding and very caring, plus the college prep is great. Graduates are well educated and ready for the next step in life both in studies and christian living.	It is great and therefore have none at this time.

School as a whole

Martin Luther High School 3960187575	Promoter - 10 Advocate - 10	No	Our son, David, attended from 1999-2004. He had a strong Christian foundation to begin with, but the education he received from Martin Luther only strengthened his faith. David excelled in college and had a head start when he attended Martin Luther.	At this time, I cannot think of any improvements. Academically and socially Martin Luther far exceeds public schools.
Martin Luther High School CONFID	Promoter - 10 Advocate - 10	No	Students get a good quality Christian education.	Do not allow teachers who are not good models for the students and/or whose lifestyles hinder children/parents from wanting to come to MLHS to continue to teach, but help them, if possible, to overcome their problems.
Martin Luther High School 3566787575	Promoter - 10 Advocate - 10	No

Martin Luther High School 7092287575	Promoter - 10 Advocate - 10	No	Students are free to study God's Word, share their personal faith story. MLHS equips students for life, they learn to care for others, learn to demonstrate integrity, and are free to pray. MLHS creates, in partnership with family and church, a community of enthusiastic, confident young people. MLHS also provides each student with an excellent academic and Biblical foundation. We are proud to have sent our children to MLHS.	When my children attended the gym floor needed work, and the lunch program could have been healthier.
Martin Luther High School 3047887575	Promoter - 10 Advocate - 10	No	I feel a Christian education is very valuable and the smaller class size is a plus and the students are very prepared when they head off to college

Martin Luther High School 6906487575	Promoter - 10 Advocate - 10	No	I have seen the difference it has made in my youngest grandson life. He feels more worth while, his grades are up. It has given my oldest grandson a jump start in college.	The school is excellant. I only wish I could contribute more to it.

Martin Luther High School 3248987575	Promoter - 10 Advocate - 10	No	Small classes, closeness with the teachers and students, Christian education, sports, challenging	I think things are fine the way they are right now.
Martin Luther High School CONFID	Promoter - 10 Advocate - 10	No	Relationship with staff and teachers is excellent, and the concern they have for not just grades but student behavior is also excellent - far above all other schools we have attended.	Coaching excellence would improve sports participoin and attract more quality athletes and students. Student cell phone registry. Online textbooks for assignments and other resources for parents to help students with studies.

School as a whole

Martin Luther High School 7393887575	Promoter - 10 Advocate - 10	No	Christian education and the commitment of the teachers	I thought it would be nice to have just a little longer lunch break. Maybe some time for them to go outside, get a little fresh air, re-energize and help them focus for the afternoon.
Martin Luther High School 3384387575	Promoter - 10 Advocate - 10	No	MLSH is an excellent option for a christ centered high school education in the greater south central Minnesota area. The smaller classes allow for better student-teacher interaction which will lead to greater satisfaction and success.	Keep doing great work!

School as a whole

Martin Luther High School 6925087575	Promoter - 10 Advocate - 10	No	Definitely like the small class sizes, small number of students is also great for sports and playing all the time. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA
Martin Luther High School 7857687575	Promoter - 10 Advocate - 10	No	Christian education is of a high importance to my husband and I.	
Martin Luther High School CONFID	Promoter - 10 Advocate - 10	No	It has excellent education and has better teaching than most schools

Martin Luther High School 4037087575	Promoter - 10 Advocate - 9	No	I am a 100% supporter of Christian education. We have a terrific system and want to see it succeed.	Continue to be visible at functions at member churches and schools to impress on the children and parents what we have to offer.
Martin Luther High School CONFID	Promoter - 10 Advocate - 9	No	Academically Strong - Good Christian Values	Communication is KEY

Martin Luther High School 1605687575	Promoter - 10 Advocate - 9	No	Christain based education	Don't have children there now so don't know what to say

School as a whole

Martin Luther High School 8115287575	Promoter - 10 Advocate - 9	No	christian education, family like atmosphere, small class sizes	Improvement is needed in the lunch program. I would like to see some sort of grant or other planning on how to have healthier lunches at the school. I don't feel it is healthy for the kids to eat fast food 5 days/week. Maybe a catering services would be beneficial since we don't have a kitchen.
Martin Luther High School 1630587575	Promoter - 10 Advocate - 9	No	Quality education in a Christian environment, where teachers are able to give students the attention they deserve.	
Martin Luther High School 5903287575	Promoter - 10 Advocate - 9	No	Small classroom size Christian education Caring staff	None
Martin Luther High School 3158287575	Promoter - 10 Advocate - 9	No	After attending parochial school for 8 years, it is a good extension of Christian training for children and the classes are smaller, for individual help if needed.	I can't think of any right now.
Martin Luther High School 3394387575	Promoter - 10 Advocate - 9	No	Excellent Christian education	Increase the strength of your visual art program as you have recently done with your music program.
Martin Luther High School 7246087575	Promoter - 10 Advocate - 9	No	The Christ-centered education, meaning ALL that is taught focuses on our Lord and Savior, Jesus Christ. Even subjects that one would consider to have nothing to do with "religion."	
Martin Luther High School 1415487575	Promoter - 10 Advocate - 9	No	Christian education, teacher to student ratio, strong academics, excellent fine arts/music program, small school teachers leadership skills & time management skills, etc.	recruitment needs a jump start to increase enrollment - need to visit area congregations/parochial schools, try some sort of home visit - one on one communication - something new!
Martin Luther High School 1266987575	Promoter - 10 Advocate - 9	No	I think it's a good Christian school, and they get a good education.	have no suggestions
Martin Luther High School 1559187575	Promoter - 10 Advocate - 9	No	God has provided Christian teachers and staff to serve his kingdom. I want to see our world rise up and and follow the Lord's calling. I desire to have me current 5th grade student grow in his faith surrounded by Christian influences in a school setting.	Have staff and/or volunteers greet and welcome all current students and parents as well as visitors when they enter the school for all events. With the exercise room and gymnasium, perhaps open that up to community use or rent for birthday parties or community recreation.

School as a whole

Martin Luther High School 7159287575	Promoter - 10 Advocate - 9	No	Because we can see the benefits from students who attend MLHS	With no children involved with your school at this time I don't feel I have the knowledge to answer this question.
Martin Luther High School 7439187575	Promoter - 10 Advocate - 9	No	The fact that this school is Christ-based. It is not frowned upon if you have chapel or pray and that is really important to me. Also that you get to develop a very close relationship with your classmates, as well as your teachers, which can benefit you grades. And the fact that they challenge you to do better - in everything that you do.	More activities within in the classroom in and of itself
Martin Luther High School 8061087575	Promoter - 10 Advocate - 9	No	Focus on Jesus' grace, and academic excellence.	
Martin Luther High School 1100987575	Promoter - 10 Advocate - 9	No	Christian education Ability to meet individual needs	
Martin Luther High School 5238587575	Promoter - 10 Advocate - 9	No	Christian values, small class size	none
Martin Luther High School 7189887575	Promoter - 10 Advocate - 8	No	Christian education	none
Martin Luther High School 2690387575	Promoter - 10 Advocate - 8	No	As a retired Lutheran educator, I see MLHS as a way to preserve and build upon what has begun early in the child's life.	As far as I know, everything possible is being done. Unfortunately, the Lutheran community in this area - even professional church worker parents - simply have not embraced the mission and the opportunity.

Martin Luther High School CONFID	Promoter - 10 Advocate - 8	No	Young adults who attend MLHS receive a very good Christian education that prepares them for their future. We have two sons who attended MLHS and we are very happy they did.	Continue to work for increased enrollment and financial stability.
Martin Luther High School 1761487575	Promoter - 10 Advocate - 8	No	Quality of education and the caring staff and Christ is taught there without reservation	Sorry not aware of any weak spots. I'm sure there is some place for improvement but I can not help with that at this time

Martin Luther High School 6738787575	Promoter - 10 Advocate - 8	No	Christian values openly discussed and shown in the school	It can be "too Lutheran" in that "its never been done that way before" is used to skirt around new ideas. Some of the discipline rules should be reevaluated to make the offenders feel like they are forgiven and really welcomed to the school instead of shunned.
Martin Luther High School 6906187575	Promoter - 10 Advocate - 8	No		
Martin Luther High School 2268087575	Promoter - 10 Advocate - 8	No	Good Christian education - it's important that kids learn about God every day; students don't get lost in the shuffle at a larger, public school; I believe private education does a better job that public education. Martin Luther High School 4948287575	Promoter - 10 Advocate - 8	No	Our children have liked attending MLHS and we are so thankful that we have a Christian high school in the area.	If it is possible, I feel strongly that our children should have the option of buying milk at lunch time. No beverage being served with lunch; is not cool. These are growing children and they need their calcium.
Martin Luther High School 5877487575	Promoter - 10 Advocate - 8	No	MLHS is a faithful Lutheran School, which teaches both the law and the gospel. The students who graduate from there go on to be very successful. Having Christ in the classroom enhances everything. Martin Luther High School 7640087575	Promoter - 9 Advocate - 8	No	The teachers,for the most part, try to do the best they can in teaching thier students in ways that is bothe educational and enjoyable.	I suggest that this school has more choices as far as language classes go. Ex. French, Lattin, Chinies ets. Also that this school eather have a gymnastic, dance, or chearleading group of some sort.
Martin Luther High School CONFID	Promoter - 9 Advocate - 8	No	the "family" feel that MLHS is able to offer, keeps the kids feeling like they belong and are a part of group that cares about them	dont' allow pushy parents to be able to influence others into choices that aren't in everyone's best interest
Martin Luther High School CONFID	Promoter - 9 Advocate - 8	No	CHRISTIAN education	emphasize Christian attitudes in and out of the classroom. Have heard of some bullying that occurs and feel that is something that should be proactively addressed.
Martin Luther High School CONFID	Promoter - 9 Advocate - 8	No	High educational quality (small classes, high test scores, etc.). Christian-focused education in all classes.	Promote the school through professional-style public relations and advertisements. Increase interaction with local parochial schools so that MLHS is a natural stepping stone for high school education rather than what I believe is the current mindset for parents - "My child is leaving grade school, now I must choose MLHS or public school."

School as a whole

Martin Luther High School 7334587575	Promoter - 9 Apathetic - 7	No	The teachers are very dedicated to teaching at ML. They are there to help you if you need it. It's small so you can be involved in many different sports and activities.	I feel our school caters to the very intelligent students. There is no home ec, shop, etc. for the kids that are not going to a 4 yr college. We still need the carpenters, electricians, hair stylists, etc. Tests are graded at 70%. There are kids who do great daily work but do not test well. Those kids are frustrated but does ML care? Test scores need to be at no more than 60% to give others a more fair chance. Get a new floor in the gym, get some great teachers who want to coach. Maybe get a co-op with a public school so kids can take some other classes. We have awesome teachers maybe public school kids would like to be taught from.

I gave you a 0 because I have no knowledge of your school as no one I know attends there. Online textbooks for assignments and other resources for parents to help students with studies.

Female 3384387575	Promoter - 10 Advocate - 10	No	MLSH is an excellent option for a christ centered high school education in the greater south central Minnesota area. Female 3266987575	Promoter - 10 Advocate - 10	No	Great education, good teachers, low student to teacher ratio, Godly teachings, and still have the same activities as larger schools.	Nothing currently
Female 2527987575	Promoter - 10 Advocate - 10	No	I loved my experience there-both academics and extra-curriculars. Very caring teachers who instilled values and deep faith in me.	None
Female 3265487575	Promoter - 10 Advocate - 10	No	The Christian values, the size of the school, the quality of caring teaching	I would like more of a challenge academically
Female 6925087575	Promoter - 10 Advocate - 10	No	Definitely like the small class sizes, small number of students is also great for sports and playing all the time. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA

With the exercise room and gymnasium, perhaps open that up to community use or rent for birthday parties or community recreation.
Female 7159287575	Promoter - 10 Advocate - 9	No	Because we can see the benefits from students who attend MLHS	With no children involved with your school at this time I don't feel I have the knowledge to answer this question.

Female 6738787575	Promoter - 10 Advocate - 8	No	Christian values openly discussed and shown in the school	It can be "too Lutheran" in that "its never been done that way before" is used to skirt around new ideas. Female 2268087575	Promoter - 10 Advocate - 8	No	Good Christian education - it's important that kids learn about God every day; students don't get lost in the shuffle at a larger, public school; I believe private education does a better job than public education.	No suggestions right now
Female 4886887575	Promoter - 10 Advocate - 8	No	The Christian education is the most important to me. The academics are above public schools and I like the small class sizes.	To be more accepting of other religions and a little more flexible.

Female 5877487575	Promoter - 10 Advocate - 8	No	MLHS is a faithful Lutheran School, which teaches both the law and the gospel. The students who graduate from there go on to be very successful. Having Christ in the classroom enhances everything.	I feel we need to start seeing recruiters in 5th grade, as in 6th grade we already start losing some children to the public school.
Female CONFID	Promoter - 10 Apathetic - 7	No	Great Academics	Communication needs to be improved between school and families

Female CONFID	Promoter - 9 Advocate - 9	No	Our daughter attended and loved it here. With our society the way it is, it is imperative that we have a Lutheran school in our area so children have another option for high school.	It is very important to keep the cost of tuition low so that many more students can attend.

Female 7351487575	Promoter - 9 Advocate - 8	No	Christian Education Good academic education	
Female 7466787575	Promoter - 9 Advocate - 8	No	Because MLHS has a great education and a welcoming atomsphere. I feel accepted and loved here by everyone!	The homework level is very high. Sometimes with sports and a job I don't enough time for it all. If the teachers took in account the sports games and prom more that would be nice.
Female CONFID	Promoter - 9 Advocate - 8	No	Because of the nice, christian enviornment and we are really close to everyone, including teachers and staff.	More college level classes
Female 7640087575	Promoter - 9 Advocate - 8	No	The teachers,for the most part, try to do the best they can in teaching thier students in ways that is bothe educational and enjoyable.	I suggest that this school has more choices as far as language classes go. Ex. French, Lattin, Chinies ets. Also that this school eather have a gymnastic, dance, or chearleading group of some sort.
Female CONFID	Promoter - 9 Advocate - 8	No	the "family" feel that MLHS is able to offer, keeps the kids feeling like they belong and are a part of group that cares about them	dont' allow pushy parents to be able to influence others into choices that aren't in everyone's best interest
Female CONFID	Promoter - 9 Advocate - 8	No	CHRISTIAN education	emphasize Christian attitudes in and out of the classroom. Have heard of some bullying that occurs and feel that is something that should be proactively addressed.
Female CONFID	Promoter - 9 Advocate - 8	No	High educational quality (small classes, high test scores, etc.). Christian-focused education in all classes.	Promote the school through professional-style public relations and advertisements. Increase interaction with local parochial schools so that MLHS is a natural stepping stone for high school education rather than what I believe is the current mindset for parents - "My child is leaving grade school, now I must choose MLHS or public school."

Gender

Female 7334587575	Promoter - 9 Apathetic - 7	No	The teachers are very dedicated to teaching at ML. They are there to help you if you need it. It's small so you can be involved in many different sports and activities.	I feel our school caters to the very intelligent students. There is no home ec, shop, etc. for the kids that are not going to a 4 yr college. We still need the carpenters, electricians, hair stylists, etc. Tests are graded at 70%. There are kids who do great daily work but do not test well. Those kids are frustrated but does ML care? Test scores need to be at no more than 60% to give others a more fair chance. Get a new floor in the gym, get some great teachers who want to coach. Maybe get a co-op with a public school so kids can take some other classes. We have awesome teachers maybe public school kids would like to be taught from.
Female 6991787575	Promoter - 9 Apathetic - 7	No	out 2 children turned out to be great christian adults	being a christian school all kids should be able to play sports NOT just the ones the coach thinks will make them a super team and make the coach look good! No one likes to sit on bench, but have to practice
Female CONFID	Promoter - 9 Apathetic - 7	No	Christian education	Improvements in coaching staff have already been made
Female 8025287575	Promoter - 9 Apathetic - 7	No	Because it's a small Christian school. therefore teachers can have more time to spend with you if you have any questions about your school works.	I would like the school to have more activities like math club, or swimming team or badminton team.

Female 2862287575	Passive - 8 Advocate - 9	No	I think the school is great but may not be best for everyone. For example, if you know you want to be an art major in college, you may want to choose a school that has more art options so you can build your portfolio. If you don't, you may be behind when you enter college.	
Female CONFID	Passive - 8 Advocate - 8	No	Improve image with "non-Christians" who perceive the school as "Holier than everyone else" I don't feel that way but people I know do and it bothers me

And give drinks with our lunches, it stinks to have to try and remember to bring your own, or remember money in the morning.

Female 6202187575	Passive - 8 Apathetic - 7	No	I see now that you offer college prep courses. I think that's great; however since I have been out of the school several years now, I don't know what they specifically consist of. When I graduated, I was grossly unprepared for the chemistry, biology, and anatomy classes I took for my college degrees.	See previous answer.
Female CONFID	Passive - 8 Apathetic - 6	No	have a better sports program	teachers not craby and to help more
Female 5693187575	Passive - 8 Assassin - 0	No	I don't know enough about the school to rate it a 10. I gave it an 8 because if someone was closer to your school, I would recommend it. I would do so because you are a Christian School and you teach about our Lord and Savior, Jesus Christ.	I gave you a 0 because I have no knowledge of your school as no one I know attends there. I think what would help the school is if you would get a bus that would go to the towns that are a ways away and pick up students from there. I know my kids would attend then.
Female 6257787575	Passive - 7 Advocate - 10	No	Tuition is a concern for our families even though I understand how much it cost per student.	
Female 4375687575	Passive - 7 Advocate - 8	No	New faculty,a more thorough "go and visit" recruiting manner; visit grade schools, meet with area principals and reach out to a wide area.	Continue to stress college level courses but if we want more kids to consider MLHS an emphasis needs to be offered for technical school programs. A shop class offered or partnered with an area school that has a shop program would be beneficial.

I think there is some hard things like the expense of tuition, due to no government funding. They ask a lot from parents who send their kids there. Which is great to a certain extent, just might be over used. Wish the school could offer a few more option like when I was in school there. They had no home economic class or shop class for kids to have a chance to learn those type things.

Female CONFID	Detractor - 5 Assassin - 3	No	Listen to the students- take their requests serious, be there for them, support them whenever possible, love one another as your brother or sister in Christ	Academics are important. When it comes to decide between a human or academics, always decide for the person, though. People are so much more important then their achievements. It's THEM who their true value is in, not in how great they do in school. Jesus loves us no matter how well we are doing in class, because we are His children and it's WE as persons who matter to Him as His beloved children ! Female 1600587575	Detractor - 3 Assassin - 5	No	It is difficult having strong religious/political beliefs that aren't aligned with Missouri Synod and having the kids hear in religion class on a regular basis that we are wrong and that anyone not in line with the Missouri Synod beliefs are basically going to Hell. There also seems to be a fair amount of hate speech against other religions i.e. Islam etc. Another issue is the hypocrisy of touting the school as this incredible Christian place of higher moral standards and at the same time allowing an assistant coach to treat kids terribly, and allowing another coach to be at school intoxicated while making a student sit detention for swearing. My son that graduated is still amazed at the double standard at the school. I would also comment on the seeming lack of action taken to address parental concerns. There also seems to be a fair amount of hate speech against other religions i.e. Islam etc. Another issue is the hypocrisy of touting the school as this incredible Christian place of higher moral standards and at the same time allowing an assistant coach to treat kids terribly, and allowing another coach to be at school intoxicated while making a student sit detention for swearing. Member of Sponsoring Church CONFID	Promoter - 10 Advocate - 10	No	Christian education has always been important to me and having the opportunity for my children to attend a Lutheran High School within close proximity to where we live, was a no brainer. Keep praying that more parents will see the value of sending their children to a Christian based school, when the values that used to be taught all over are being taken away from our public schools, thereby undermining the values that Christ has taught.

Alumnus 6925087575	Promoter - 10 Advocate - 10	No	Definitely like the small class sizes, small number of students is also great for sports and playing all the time. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA

Promote the school through professional-style public relations and advertisements. Alumnus 2862287575	Passive - 8 Advocate - 9	No	I think the school is great but may not be best for everyone. There also seems to be a fair amount of hate speech against other religions i.e. Islam etc. Another issue is the hypocrisy of touting the school as this incredible Christian place of higher moral standards and at the same time allowing an assistant coach to treat kids terribly, and allowing another coach to be at school intoxicated while making a student sit detention for swearing. My son that graduated is still amazed at the double standard at the school. I would also comment on the seeming lack of action taken to address parental concerns. I would do so because you are a Christian School and you teach about our Lord and Savior, Jesus Christ.	I gave you a 0 because I have no knowledge of your school as no one I know attends there. I think what would help the school is if you would get a bus that would go to the towns that are a ways away and pick up students from there. I know my kids would attend then.

There also seems to be a fair amount of hate speech against other religions i.e. Islam etc. Another issue is the hypocrisy of touting the school as this incredible Christian place of higher moral standards and at the same time allowing an assistant coach to treat kids terribly, and allowing another coach to be at school intoxicated while making a student sit detention for swearing. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA

It's small so you can be involved in many different sports and activities.	I feel our school caters to the very intelligent students. There is no home ec, shop, etc. for the kids that are not going to a 4 yr college. We still need the carpenters, electricians, hair stylists, etc. Tests are graded at 70%. There are kids who do great daily work but do not test well. Those kids are frustrated but does ML care? Test scores need to be at no more than 60% to give others a more fair chance. Get a new floor in the gym, get some great teachers who want to coach. Maybe get a co-op with a public school so kids can take some other classes. We have awesome teachers maybe public school kids would like to be taught from.

Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.</p>	<p>Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. It is nice and small and you get lots of one on one with teachers and classmates. I think there is some hard things like the expense of tuition, due to no government funding. They ask a lot from parents who send their kids there. Which is great to a certain extent, just might be over used. Wish the school could offer a few more option like when I was in school there. There is no home ec, shop, etc. for the kids that are not going to a 4 yr college. We still need the carpenters, electricians, hair stylists, etc. Tests are graded at 70%. There are kids who do great daily work but do not test well. Those kids are frustrated but does ML care? Test scores need to be at no more than 60% to give others a more fair chance. N/A 6925087575	Promoter - 10 Advocate - 10	No	Definitely like the small class sizes, small number of students is also great for sports and playing all the time. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA

Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA

Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.</p>	<p>Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA</p>

I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. College prep curriculum 6925087575	Promoter - 10 Advocate - 10	No	Definitely like the small class sizes, small number of students is also great for sports and playing all the time. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA

Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.</p>	<p>Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. That was a little frustrating if you could find somewhere else to store the equipment. Oh and maybe a working pop machine that doesn't eat your coins. HA</p>

N/A CONFID	Promoter - 10 Advocate - 10	No	Christian education has always been important to me and having the opportunity for my children to attend a Lutheran High School within close proximity to where we live, was a no brainer. God would provide the funds needed to send our children and He did just that--the money was always there when needed.	Keep praying that more parents will see the value of sending their children to a Christian based school, when the values that used to be taught all over are being taken away from our public schools, thereby undermining the values that Christ has taught.
N/A CONFID	Promoter - 10 Advocate - 10	No	Relationship with staff and teachers is excellent, and the concern they have for not just grades but student behavior is also excellent - far above all other schools we have attended. N/A 7334587575	Promoter - 9 Apathetic - 7	No	The teachers are very dedicated to teaching at ML. They are there to help you if you need it. It's small so you can be involved in many different sports and activities.	I feel our school caters to the very intelligent students. There is no home ec, shop, etc. for the kids that are not going to a 4 yr college. We still need the carpenters, electricians, hair stylists, etc. Tests are graded at 70%. There are kids who do great daily work but do not test well. Those kids are frustrated but does ML care? Test scores need to be at no more than 60% to give others a more fair chance. Get a new floor in the gym, get some great teachers who want to coach. Maybe get a co-op with a public school so kids can take some other classes. We have awesome teachers maybe public school kids would like to be taught from.

It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I mean I know a wooden gym floor would be great, but I know there's a lot more to worry about than that. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. There is no home ec, shop, etc. for the kids that are not going to a 4 yr college. We still need the carpenters, electricians, hair stylists, etc. Tests are graded at 70%. There are kids who do great daily work but do not test well. Those kids are frustrated but does ML care? Test scores need to be at no more than 60% to give others a more fair chance. Mostly though, I like the Christian education. In the school you can express your religion openly and learn so much you didn't know before through the religion classes. I also like the tough classes that challenge you. When you're going through it, it might seem to be very difficult, but I can tell you now that my college experience has been a piece of cake because of attending Martin Luther and going through their system. It has helped me in so many ways it's hard to explain them all.	Right now I can't pin any improvements. I had a great experience there. I think the only thing I disliked was when we had rummage sales and you had to walk all the way around, because you're not able to use the middle aisle. When it comes to decide between a human or academics, always decide for the person, though. People are so much more important than their achievements. It's THEM who their true value is in, not in how great they do in school. Jesus loves us no matter how well we are doing in class, because we are His children and it's WE as persons who matter to Him as His beloved children ! No 1600587575	Detractor - 3 Assassin - 5	No	It is difficult having strong religious/political beliefs that aren't aligned with Missouri Synod and having the kids hear in religion class on a regular basis that we are wrong and that anyone not in line with the Missouri Synod beliefs are basically going to Hell. There also seems to be a fair amount of hate speech against other religions i.e. Islam etc. Another issue is the hypocrisy of touting the school as this incredible Christian place of higher moral standards and at the same time allowing an assistant coach to treat kids terribly, and allowing another coach to be at school intoxicated while making a student sit detention for swearing. My son that graduated is still amazed at the double standard at the school. I would also comment on the seeming lack of action taken to address parental concerns.
