Tabulating Results

The diagram below is a picture of the Sample Voting Grid
Included earlier on this web page.

A. Increase and improve **Communication** among the following
    groups of people: parents, administrators, teachers,
    students, Board of Directors, churches, community,
    alumni, etc.

A A A A A A A
B C D E F G H

B. **Lutheran/Christian/ Private** – what are our guidelines and
    guiding principals as we struggle to remain Lutheran and
    Christian while more people are viewing us as private?

B B B B B B
C D E F G H

C. Increase **Friendliness** by striving for a more welcoming
    atmosphere in the building and the people in it

C C C C C
D E F G H

D. **Financial Issues**, including but not limited to more
    competitive salaries and restructuring the funding sources
    and formula

D D D D
E F G H

E. Improve the **Quality of Education**, including but not limited
    to: enrichment; appropriate level of homework; increased
    math achievement; admission guidelines

E E E
F G H

F. Improvement of **Technology**, including hardware and
    software maintenance, and staff training

F F
G H

G. Consider upgrading **Facilities**, especially the older portion
    of the building, and consider expanding facilities for both
    current and anticipated future needs

G
H

H. Increase **spiritual growth** utilizing opportunities to witness,
    increased student service opportunities, more intentional
    integration of faith in classes, and improved chapel services

1. EVERYONE gets the same "ballot."
2. As these ballots come back, first identify them as coming from which of the groups that you want represented.
3. Then tabulate the results in the following manner:
4. First count all the A's that are circled and write that number by the letter A.
5. Next count all the B's, then the C's, and continue through the end of the ballot.
6. Next see the Sample Grid Results posted next on this web page for an example of how to report the results.
7. Finally compile all of the results into one spreadsheet (the last spreadsheet on the document posted next on this web page). As you will see on that spreadsheet the results speak for themselves.
